

K-LOVE radio should NOT be subject to LPFM stations that could be allowed to take priority on translators. This station serves the needs and wants of a broad, loyal listener base. I am grateful that I can listen to KLOVE not only in my home town of Fresno, CA, but just about anywhere I travel in the USA. Most small cities and towns cannot put together the finances and personnel to support their own individual listener-supported Christian radio stations. K-LOVE fills the need nationwide and we all contribute to keep it broadcast that way. K-Love fills a personal need for countless people in our community that no other station fills. If an lpfm station were to displace K-LOVE, it would not like offer this unique SERVICE, but would probably duplicate an already-existing format among our other repetitious FM stations here in Fresno...and likely the same is true in other communities. Among all the local stations, only K-LOVE provides an actual service here, and that service is multi-faceted:

1. Non-offensive talk between music
2. Uplifting, positive, encouraging music AND commentary
3. Spiritual and emotional encouragement and guidance for not only Christians but also for non-Christians--just survey the listeners and discover that for yourselves!
4. Suitable for the ears of even the youngest listener, 24-7.

PLEASE do NOT threaten our one-and-only radio station that we want to listen to, only to replace it with noise from just another duplicative station of questionable motives and morals, and likely with offensive music.
